Name: <b>GCH LA SCALA L'ULTIMA EVVITA D'COCC</b> DOB: <b>05/13/2009</b> Sex: <b>Male</b> Breed: <b>Italian Greyhound</b> Microchip: <b>RES 981020003534998</b>	Reg: <b>TR86561401</b>
---	------------------------

Sire: CH AMORE'S ROYAL STARGAZER Dam: BISS CH VOICI AZZURRA DI LA SCALA	Reg: TN58966703 Reg: TR50506601
--	------------------------------------

<b>Familial Enamel Hypoplasia<sup>1</sup></b>	N/N
<b>Susceptibility to PRA<sup>2</sup></b>	Not Requested
<b>Susceptibility to Glaucoma<sup>3</sup></b>	Not Requested

No copies of FEH mutation; dog is normal.

Notes:

1. This test is specific for the mutation associated with Familial Enamel Hypoplasia (Autosomal Recessive Amelogenesis Imperfecta) in Italian Greyhounds.
2. This test is specific for 5 mutations associated with susceptibility to the major cause of PRA presently occurring in the Italian Greyhound breed. This test is not valid for other breeds. It is important to note that there may be other genetic forms of PRA in the breed.
3. This test is specific for the 2 mutations associated with susceptibility to primary closed angle glaucoma in the Italian Greyhound breed. This test is not valid for other breeds.

**For more information about Familial Enamel Hypoplasia, Susceptibility to PRA and Susceptibility to Primary Closed Angle Glaucoma please go to:**
